REVIEW OF BRIGGS STRATTON 850 SERIES ENGINE

- i purchased this tool quite some time ago... it was for a very small project in my powder

room... mr. drake has since come out with a new book... with the step by step instructions and illustrations...that makes it so very easy to understand... i have decided to put molding through out my 3100 sq ft. home...i would recommend that the book is definately a plus for any work shop library...the steps that show you how to make cornices is great... very easy ... if i can do it so could any one...i am 5'tall and 97 lbs. the only thing i could use is an extra set of hands when i'm putting it up...but leave it to mr. drake i'm sure he'll think of something. thank you mr. drake for the book.

- I chose Verne's classic Twenty Thousand Leagues Under the Sea for a

book project in my accelarated english class, and the book truely was a wonderful read.The adventure and mysterious journies M. Aronnax, Consiel, and Ned Land partake in were vividly portrayed in the book. Also the Nautilus was really amazing, in two ways. First in how powerful the ship was, and second how Verne could have created the idea for such a vessel for the period of time he wrote the book.From the underwater forests of Crespo, to the Manaar Bank, then to Atlantis and the South Pole, the book made it feel as if I was traveling along with them. In addition to the locales, the Nautilus itself was amazing, with it's speed, strength and technology. On top of

that, there was also, unknown to us. Professor Aronnax began thinking some monstrous narwhal type beast is destroying ships in the bottom of the ocean which were described with amazing detail. Captain Nemo was the most complex character I've read about in a long time. Throughout their time on the ship, Aronnax, Conseil, and Land never see much of Nemo, and when they do, he's not a man of many words. He is, however a man of great intelligence, skill, and wealth, who decided to sever all ties with civilization, for reasons that appear unknown to us. Professor Aronnax began thinking some monstrous narwhal type beast is destroying ships in the ocean at the beginning of the story, so himself, Conseil, and Ned Land set out to discover what it really is, and find themselves amidst something completely different. This book was a treat to read with all its adventure and exploring. Its story was crisp and fresh. Along with a ending that I feel fit justly. If you haven't already, I suggest you give this book a read
