## REVIEW OF GAT TEST PAST PAPERS

- The Essential Books are a great way to catch up on the history of your favorite marvel comics. This one covers the early days of the X-Men, and while [like many of the comics I've read from this era] are just self-contained stories in each issue with few plot elements that carry over (There are a few, just not as many as you see now), it is still a good read. You see the first appearances of many of the X-Men mainstays (Magneto, The Sentinels), and it is amusing to see how much has changed since the beginning. I eagerly await the Essential books that cover the rest of the early X-men issues.
- I read this book in the past and it definitely helped. This time I bought it for a friend, I think this is a women must have!
