## **REVIEW OF RAILWAY CIVIL ENGINEERING**

- Charles Dickens's acknowledged masterpiece, *Great Expectations*, is rightly considered one of the greatest novels of all-time. Its depth and breadth are staggering, as it

follows its protagonist, Pip, from his early childhood through his later life. During the course of his life, we encounter a vast catalog of raw human emotions: love, hate, jealousy, hope, sadness, despair, anger, pity, empathy, sympathy -- and on and on. The story is treasured and revered for many reasons. One of its main strengths is its plot: after a somewhat slow introductory section, Dickens puts his story in fifth gear and delivers a fast-paced and exciting story that gallops along without ever losing interest or clarity. The incredibly complex plotline, full of separate stories and incidents that seem totally unrelated to each other, but are then all harnessed

together as the book heads straight toward its denouement, is also full of constant plot twists, which continue up until, literally, the last paragraph. But, of course, as with all of Dickens's major works, it is the characters that make the book. Like Shakespeare, Dickens preferred to have the story develop through the characters, rather than having the characters be mere set pieces inside of an overriding story. And what great characters they are: the perennially paradoxical but essentially human Pip; the bitter and mysterious Miss Havisham; the beautiful and haughty Estella; the simple and saint-like Joe; the kind and benevolent Herbert; the very human convict, Magwitch -- and all of the other wonderful characters. Dickens excelled in creating well-rounded, very human characters who harbored very real and very complex emotions -- that is, human emotions. We identify with Pip as he winds through his life, because we have been there, too -- the disappointments, the surprises, the loves, the anger, the sadness. In whatever way his story may differ from our own, it is still essentially human, as is ours. For all of his complex and paradoxical emotions and sentiments, Pip is a recognizably human character -- and that is why we love him and this book. A masterpiece for the ages, which will endure for years yet to come,

Great Expectations is a great book that can be loved by one and all, for, at its heart, is that grain of simple truth that says so much about what is human in all of us -- whether we have great expectations or not.

- I had to read this book a few years ago for an advanced English class and I hate the book. I think its awful that I was forced to read what amounted to an 18th century serial out of a tabloid. The reason the book is filled with so much meaningless drivel is that Dickens was paid for each installment and the longer the series lasted the longer he had a steady job, At least thats my theory. I just

wish I could ask the dead author some questions like Why didn't you let Pip grow the Hell up? That poor me, I'm a country peasant with no friends act got real tired real quick. Second question Where in his warped imagination did he get Ms. Havishom? News flash! Anyone who did so many terrible things because a man left her was mentally unstable before she met the jerk which explains why he left her. Oh and one more thing if your a feminists (like me) this book will get you upset enough. The only women in the book are either crazy old hags or out right bitches. It certainly says a lot about male Victorian sensibilities!!
