REVIEW OF SANDTRAY THERAPY EXERCISES

- "Travels with Charley" is a book with a lot of soul to it. Steinbeck's travels are charming, with some exceptions, particularly when he describes his travels in the South. His insights into American life are very interesting and I find he was right when he talks about

interstate travel (how you can't see much of a place from the interstate) and how interstates cut into life and business along rural roads and freeways. Steinbeck is such a great writer, he makes everything flow so well that reading his books seem effortless.

Travels with Charley isn't considered his masterpiece, but it's a great book (is it a novel or non-fiction, I can't seem to figure that out.) Highly recommend this.

- Great book even if you've been married several years or more- Makes a great wedding shower gift!
