The Asian Insider Leadership in the Asia PacificA Global Research Perspective

In the late 1950s, the Filipino economy could reasonably have been described as more advanced than those of its South Asian neighbours. Ever since then, however, it has consistently lagged behind and only really started to grow strongly in the mid-1990s and even then it failed to achieve the growth rates of the rest of Southeast Asia ten years earlier. This book critically analyses the Filipino economy and attempts to explain the problems that it has faced, as well as the solutions that need to be put into practice. This accessible and comprehensive book will be of great use to students, academics and business professionals with an interest in the economies of Asia.

A Globe and Mail Best Books of the Year 2011 Title Siddhartha Deb grew up in a remote town in the northeastern hills of India and made his way to the United States via a fellowship at Columbia. Six years after leaving home, he returned as an undercover reporter for The Guardian, working at a call center in Delhi in 2004, a time when globalization was fast proceeding and Thomas L. Friedman declared the world flat. Deb's experience interviewing the call-center staff led him to undertake this book and travel throughout the subcontinent. The Beautiful and the Damned examines India's many contradictions through various individual and extraordinary perspectives. With lyrical and commanding prose, Deb introduces the reader to an unforgettable group of Indians, including a Gatsby-like mogul in Delhi whose hobby is producing big-budget gangster films that no one sees; a wiry, dusty farmer named Gopeti whose village is plagued by suicides and was the epicenter of a riot; and a sad-eyed waitress named Esther who has set aside her dual degrees in biochemistry and botany to serve Coca-Cola to arms dealers at an upscale hotel called Shangri La. Like no other writer, Deb humanizes the post-globalization experience—its advantages, failures, and absurdities. India is a country where you take a nap and someone has stolen your job, where you buy a BMW but still have to idle for cows crossing your path. A personal, narrative work of journalism and cultural analysis in the same vein as Adrian Nicole LeBlanc's Random Family and V. S. Naipaul's India series, The Beautiful and the Damned is an important and incisive new work. The Beautiful and the Damned is a Publishers Weekly Best Nonfiction title for 2011.

Sharing stories and inspiring lessons on leadership and design, one architect explains how he helped build one of the world's most successful firms Founded on July 4, 1976, Kohn Pedersen Fox quickly became a darling of the press with groundbreaking buildings such as the headquarters for the American Broadcasting Company (ABC) in New York, 333 Wacker Drive in Chicago, the Procter & Gamble headquarters in Cincinnati, and the World Bank Headquarters in Washington, DC. By the early 1990s, when most firms in the U.S. were struggling to survive a major recession, KPF was busy with significant buildings in London, Germany, Canada, Japan, Korea, and Indonesia—pioneering a model of global practice that has influenced architecture, design, and creative-services firms ever since. Like any other business, though, KPF has stumbled along the way and wrestled with crises. But through it all, it has remained innovative in an ever-changing field that often favors the newest star on the horizon. Now in its fifth decade, the firm has shaped skylines and cities around the world with iconic buildings such as the World Financial Center in Shanghai, the International Commerce Centre in Hong Kong, the DZ Bank Tower in Frankfurt, the Heron Tower in London, and Hudson Yards in New York. Forthright and engaging, Kohn examines both award-winning achievements and missteps in his 50-year career in architecture. In the process, he shows how his firm, KPF, has helped change the buildings and cities where we live, work, learn, and play. "A must-read for all of those who love cities and the buildings and skylines that define them." —Stephen M. Ross, chairman and founder of The Related Companies

While the United States stumbles, an award-winning foreign correspondent chronicles China's dramatic moves to become a dominant power. As the world's second-largest economy, China is extending its influence across the globe with the complicity of democratic nations. Joanna Chiu has spent a decade tracking China's propulsive rise, from the political aspects of the multi-billion-dollar "New Silk Road" global investment project to a growing sway on foreign countries and multilateral institutions through "United Front" efforts. Chiu offers readers background on the protests in Hong Kong, underground churches in Beijing, and exile Uyghur communities in Turkey, and exposes Beijing's high-tech surveillance and aggressive measures that result in human rights violations against those who challenge its power. The new world disorder documented in China Unbound lays out the disturbing implications for global stability, prosperity, and civil rights everywhere.

100 Top Chinese Restaurants of the World 2020 is into its second edition. I hope readers agree with the majority of my choices. As a Singaporean of Chinese descent, I proudly admit that the annual guide is a labour of love - and greed - for the great cuisines of China. My two favourite are Yue (my maternal family comes from Shunde) and Huaiyang (particularly the delicate cold dishes). My father came to Singapore as a child from Huai'an, Quanzhou, so I also love Min cuisine. And Lu, Chuan, Chaozhou, Kejia and many other branches of Chinese cuisine. I write about cuisine from a cultural, historical point of view. So, 100 does not contain recipes. But, you will discover that xiao long bao does not come from Shanghai but were already very popular in Kaifeng during the Northern Song Dynasty (960 - 1127). Or that Cantonese food should properly be called Yue cuisine which has its origins from the Kingdom of Nanyue (204 BC - 111 BC). 100 has Chinese restaurants from New York, London, Paris, Mumbai, Bangkok, Ipoh, Kuala Lumpur, Singapore, Foshan, Guangzhou, Quanzhou, Hangzhou, Yangzhou, Suzhou, Shanghai, Yokohama, and lots more. The restaurants are not rated from 1 to 100 but there is a Restaurant of the Year, 10 Top 10, 10 Top 20, 10 Top 30, and 69 other restaurants to make a total of 100. You may be surprised to learn that the best char siew may actually be from Malaysia. Or that there is a tea house in Yangzhou that makes up to 50,000 baos a day! And that the Restaurant of the Year 2020 was started by a woman. CH'NG Poh Tiong Publisher/Author of 100 Top Chinese Restaurants of the World

SUGAR - a carbohydrate or toxic chemical; an excuse for obesity or the cause; much maligned or a natural ingredient? Drug trafficking is the most visible part of the profits of organized crime, which have grown considerably since the end of the cold war. The mirror of history shows us the impact of the drug trade in the colonization of Asia. The post cold war geopolitical context reproduces elements of the past, with new opportunities for drug trafficking in the globalization process, as can be seen in the example of China, and the lasting impunity in terms of money laundering. With the growing role of offshore locations in the global financial system, criminal prosperity has even affected the economic stability of some countries. This book presents a new and heterodox interpretation of the post cold war financial crisis, by focusing on the unexplored dimension of illicit actors. The Mexican crisis of 1994 and its 'tequila effect' is analyzed as a model of a 'cocaine effect' from the local laundering of profits from the sale of drugs in the US. The Japanese crisis of the 1990s is put in relation to the economic influence of the Yakuza on the real estate bubble, which had the effect of postponing necessary market adjustments. And the Thai crisis of 1997 is analyzed in the light of massive money laundering of institutional and criminal networks, whose undeclared profits represent about 10% of GDP.

This book seeks to survey the role of tycoons in Hong Kong's socio-political and socioeconomic developments. Summoned to Beijing just before the onset of the territory's longest social movement, it highlights the tycoons' symbolic intermediary role between Beijing's elite and the people of Hong Kong. Also investigated is the unwritten social contract between Beijing's elite and Hong Kong society — that the tycoons will be rewarded economically or left alone to conduct their business activities if they remain compatible with Beijing's policy directions (or at least remain neutral in contentious issues) and facilitate policy implementation if necessary. Tycoons in Hong Kong has three research objectives: first, in understanding the roles that tycoons play in Hong Kong, it is necessary to understand Beijing's crafted political and social spaces for Hong Kong's economic elites to exert their influence. Second, it examines the integrated roles that the tycoons play as consultative members of the Chinese one-party socio-political structures. Third, it presents the humanized side of the tycoons, highlights the positive contributions that tycoons make to Hong Kong and mainland China and deconstructs the idea of a hegemonic tycoon class by emphasizing their heterogeneity in the biographical entries section of the publication.

The study aims at finding an explanation to the economic development of Southeast Asia. To achieve this end, Indonesia, Malaysia, Thailand and the Philippines have been chosen as the foci of the study. To explain the region's recent success, the study is guided by the hypothesis that overseas Chinese entrepreneurship, exercised by a group belonging to a discriminated ethnic minority, is an indispensable component of the capitalist development of Southeast Asia. Overseas Chinese businesses dominate nearly all branches of the economy of their respective countries of residence. On a regional scale, they are acknowledged to control two-thirds of the region's retail trade. The hypothesis of the study is validated by the empirical findings. Furthermore, the study has arrived at the conclusion that Southeast Asia is host to a type of entrepreneurship - Overseas Chinese entrepreneurship - that evolved and developed throughout the centuries and proven for its resiliency and risk-taking abilities. It did not create the boom in the region, however. Liberal government policies, the inflow of huge foreign capital, and the availability of cheap and skilled labor among the indigenous population are among the more crucial factors that facilitated this transformation.

Over the years many transnational labor alliances have succeeded in improving conditions for workers, but many more have not. In The New Politics of Transnational Labor, Marissa Brookes explains why this dichotomy has occurred. Using the coordination and context-appropriate (CCAP) theory, she assesses this divergence, arguing that the success of transnational alliances hinges not only on effective coordination across borders and within workers' local organizations but also on their ability to exploit vulnerabilities in global value chains, invoke national and international institutions, and mobilize networks of stakeholders in ways that threaten employers' core, material interests. Brookes uses six comparative case studies spanning four industries, five countries, and fifteen years. From dockside labor disputes in Britain and Australia to service sector campaigns in the supermarket and private security industries to campaigns aimed at luxury hotels in Southeast Asia, Brookes creates her new theoretical framework and speaks to debates in international and comparative political economy on the politics of economic globalization, the viability of private governance, and the impact of organized labor on economic inequality. From this assessment, Brookes provides a vital update to the international relations literature on non-state actors and transnational activism and shows how we can understand the unique capacities labor has as a transnational actor.

REVIEW OF SHANGRI LA FOUNDER ROBERT KUOK S MEMOIRS BUSINESS LIFE

- I loved this journal. I bought one for each of my friends. Sarah starts by pointing out all the "simple" things we should be grateful for, things we overlook which I found very interesting. So on those days where we feel we had a bad day and theres nothing to be grateful for you can go to that list and find at least 10 things. Its worth the money, you'll enjoy it.

- It's a great that another book has been written on this deeply troubling yet narrowly recognized problem in today's world affairs.The author presents the problem, traces its roots, lists a wealth of examples and statistics, discusses the causes and effects, and proposes solutions while recognizing the difficulties.I hope policy-makers would read this book and recognize the grave consequences that this salient problem would entail if it is not dealt with quickly and effectively.
