REVIEW OF MR MONK GOES TO HAWAII

- The Nobel winning physicist Richard Feynman attributed much of his success to his stubborn obsession of reading the basic papers of physics himself and not relying on other people to interpret them. I like this book because it offers the same thing - a glimpse into the world's largest religions through their own writings. I'm most familiar with Christianity and thought that the chapters covering Judaism and Christianity presented a fair representation of both religions so I'm

assuming that other religions are covered in a similar fashion. The translations are very readable and there is a helpful glossary at the books' end. Good book.

- A young boy opts to adopt an abused and neglected dog in need of a home rather than raise a coveted purebred pup and learns that hard-earned love is sometimes the sweetest to receive. Ukrainian artist Katya Krenina's illustrations are delightful and Lisa McCourt's tale of a boy and his dog seemed particularly relevant to our family's own adoption story.
