REVIEW OF GASTROINTESTINAL PHYSIOLOGY 8TH EDITION

- I am a mother,wife,and cooking school student. Before cooking school,I started my baking with books and read so many books - actually, too many books. Maida hatter's every cook books are so satisfying . Definitely, I fell in love with her books.

- Life After God is well written, there is no argument there (despite a few consistency errors). The problem is this nice read goes nowhere, it just delivers lots of little stories with nothing to tie them together into a cohesive whole. Coupland is good with his prose and is very easy to read, but I want more than that. And really, a plot is not too much to ask for is it?
