REVIEW OF ENSEST OKU

- Over the course of my life I've had limited exposure to knowledge about oil - I see gas prices daily, I occasionally pay attention to news stories that feature oil prominently, and I read the protest banners that exclaim "no blood for oil" (which I always found to be a rather silly slogan). End all be all, I didn't know Jack about oil until I read this book. The book starts with a history of oil discovery (Chapter 1). Usually such histories are incredibly boring in my opinion, but Yeomans does a great job keeping the reader interested (partially by moving pretty quickly, rather than dwelling on arcane and ultimately irrelevant historical analysis). Chapters 2-7 deal with different policy topics that are predominantly oil oriented: cars in America, human rights and environmental issues in oil exploration, oil prices and scarcity, oil wars, President Bush's association with the oil industry, and CAFE (a piece of emissions standards legislation). The book then ends (Chapter 8) with a brief discussion of hydrogen as an emerging alternative and an afterward on the rising importance of China. From what I know of oil discussions in general, these chapters introduce most of the important elements of the general discussion of oil; reading this book made me feel prepared to discuss oil issues to a moderate degree of depth. For readers who are already familiar with these discussions about oil, I don't know that reading this book will tell you much more than you already know. Yeomans clearly has a liberal bias on the issue, but he is not quite a doomsayer. For those who do not know much about the politics and cultural aspects of oil, I highly recommend this book as a short read that will get you up to speed so whenever the topic comes up in conversation or news you can have an informed opinion.

- The antiquity of this shines through like stained glass. The story and morality behind it is lasting and thought-provoking, while the storyline leaves something to be desired at points. Reviewed by Jonathan Stephens
