REVIEW OF 110CC LIFAN ENGINE MANUAL AIDELIORE

- Whether you find HAGAKURE of interest depends on your approach to the book. Although this is not a book of sword technique, it is much like a traditional swordmaster, teaching only what the student is open enough to know, and teaching on many levels. On one level, it is a book of eyewitness accounts and stories from the decline of the Samurai era. Tsunetomo has a

gift for storytelling, and for slipping in little details that might be of use to the aspiring Bushi. For example, do you know the quickest, easiest way to remove a dead enemy's face from his skull? He also gossips in an entertaining way about the lives of various local notables. It is as if you are having dinner with a slightly cynical, retired Samurai, the saki is passed around, and he begins talking freely. On another level the book addresses the questions of loyalty, honor, and the meaning of life. It celebrates virtue and valor, while avoiding the sugarcoating that such subjects get in the west. Anyone who faces dangers and obstacles in their day to day walk will find this little book strangely supportive. In this age where loyalty has a price, and commitment is a meaningless word, the savage beauty and strange purity of the Bushi mind, as revealed by Tsunetomo, can strengthen the heart, and recharge the mind. IF YOU LIKE HAGAKURE, you should read: THE BOOK OF FIVE RINGS, Miyamoto Musashi THE UNFETTERED MIND, Takuan Soho ACTS OF WORSHIP, Yukio Mishima

- Professor Gaddis wrote this book for Yale students who don't like to read long books. It is a well written, persuasive effort, but ultimately is not convincing. For readers who didn't go to Yale and can read somewhat longer books a better choice is Professor Gaddis's "We Now Know: Rethinking Cold War History." Douglas Wilson
