**REVIEW OF INTRODUCTION TO COMBUSTION
STEPHEN TURNS SOLUTION**

- I would have given 3 stars, as it was merely dull, ham-fisted, and in a writing style I don't appreciate, but I've decided to start dropping a star from any book not about WWII which brings Nazis to bear, whether as the "bad guy" in a thriller or as here, simply a long recollected passage meant to draw parallels with the protagonist's own dystopia - if you need to mention Nazis for me to understand that the regime is evil, you're doing something wrong. (Copied from my Goodreads review)

- This book demonstrates a world with complex social interactions in a way that is readable, believable, and most importantly plausible. It really makes you think about the social roles of women and the importance to maintain a feminine identity. Very well written and easy to read. One of the best romances I've ever read!
