REVIEW OF CRYPTOGRAPHY NETWORK SECURITY AND CYBER LAW

• I've been reading this to my daughter every night for the past few nights, and she's always asleep by the end of it. It's fun to read, and the illustrations are wonderful. Another great Seuss classic!

• The Professor's House is a very good novel but not one of the five novels by Cather that I would rate 5 stars. The novel is a critical look at higher education in one way. The college in America was once a fountain of basic knowledge in the humanities arts and basic sciences. The college education at the undergraduate level was not about job training but developing intellect. The liberal arts and basic sciences were at the center of a college or university.Cather critiques the change into a job training center and the change in attitude from being motivated by a search for knowledge to being motivated by money. Even the professors are affected and it shows most clearly when the title character talks to a close faculty friend whose anger at ebeing denied money from a discovery of one of his students stuns the professor becausehe thought his friend was a physicist to learn the secrets of the universe not make money fro mpractical applications of discoveries.The whole novel is a critique of the American emphasis on money and possessions. The professor rejects his nicer and brand new house because it has no soul .The main reason he consented to buy it was his wifes desire to be upscale and the financial success of his books enable that but the professor didd research out of love of knowledge which is why he so loved and admired the other main character

Tom Outland who after he dies has his research as a student turned into something practical and wealth creating by oo professors son in law or one of them . He and his wife represent greed while the other daughter and son inlaw represent osmething more noble but they too are affected by a love of money they just dont have much. Only Outland the Professor ST.Peter put love of knowledge for money. The book is quite good but the middle section on Tom Outland in New Mexico so I RATE IT 4 STARS
