REVIEW OF GROWING OBJECT ORIENTED SOFTWARE D BY TESTS

- Matilda would give this book Matilda five stars because it was a funny book. I think Roald Dahl's way of writing keeps you wanting to read more. Matilda's dad and mom are mean to her. Her dad calls her names like "idiot" and they don't pay attention to her intelligence. Miss Trunchbull is the headmistress she is t and hates little kids she calls them brats. But Miss Honey loves kids and her job. Matilda scares her dad and Miss Trunchbull for being mean to her. I liked this book because it's a funny book. I like when Lavender puts the newt into Miss Trunchbull's water. I would recommend this book and Dahl's other books because his writing is creative.

- Before getting my pets, I have looked up information on the internet and got a pretty good understanding, but I wanted a book as a handy reference. This book was rather disappointing because it does not offer much more than the internet: too much unimportant information (Mickey Mouse!), and not enough about mouse behavior, how to handle different medical problems such as taking care of pregnant mouse and her pups etc. I do not recommend this book.
