REVIEW OF SONG FROM A SECRET GARDEN PIANO AND VIOLIN SHEET MUSIC PDF

- I loved reading Matilda. It was a fabulous children's book, especially for 4th grade kids. The story of Matilda is full of action and comedy. It keeps your interest and you won't want to put the book down. Matilda is about a young girl that

is very smart and goes off to school and meets a horrible woman that the children call The Trunchbull. This woman is the Headmistress of the school that Matilda goes to. The Trunchbull is not nice and always has negative things to say. Matilda gets picked on a lot but when one of her classmates wears her hair in pigtails things get a little rough. The Trunchbull hates pig tails and catches the girl and reminds her "I hate pig tails." She yells. But the little girl tells The Trunchbull, "My mommy thinks I look pretty." Then The Trunchbull bellows back, "Your mommy is a twit." Then she grabbed the girl by her pigtails and throws her over the playground fence into the

courtyard. The poor girl just gets up and stutters away very sad. This book will make you laugh, feel sad, and keep you on your toes with lots of action from all the characters. But poor Matilda has it hard at school and at home. She loves to read. You feel really sad when she asks her Dad for a book. She finally get the courage and says "Daddy do you think you could buy me a book?" "A Book?" he said, "What do you need with a flaming book?" "To read Daddy." "What's wrong with the telly for heavens sake?" "We've got a lovely telly with a 12 inch screen and now you come asking me for a book? Your getting spoiled my girl!" But that didn't stop Matilda she went

to the library everyday when her mother would be at Bingo and her father would be at his car dealership. She read every single children's book and some adult ones too. Matilda teaches a great lesson that you can do anything if you set your mind to it. These are just a few of the wonderful , sad, funny and action packed moments that the book has to offer. it's a book for everyone young and old. Roald Dahl is a funny and very hilarious author. Dahl published Matilda a short amount of years before he died. Usually the stories that an author publishes before he dies are all sad, but not Dahl he keeps his books alive and comical. If you read Matilda you will learn many valuable

lessons, laugh, and see things that don't happen to ordinary people. I want everyone to read Matilda because I guarantee you will love it! If you like Matilda you can read some other good books by Roald Dahl like, Fantastic Mr. Fox or James and the Giant Peach. I absolutely love Roald Dahls writing style. Right now I am writing my own story but I am not as good as Dahl, but hey I'll always keep trying until I am. REVIEW BY: Matthew Martin

- The book I was hoping this one was has yet to be written. Denzler doesn't tell us anything we didn't already know about why and how people believe in UFOs and aliens. Mainly what we have here is just

compiling the history of reported sightings and abductions, as well as summaries of leading authors (Vallee, Keel). No analysis of the psychology or mass psychology of purported abductees. If you're a true believer, the book probably won't interest you, and if you're trying to understand the believers, it won't answer your questions. I know from my own experience that the author hasn't begun to scratch the surface of the current types of UFO beliefs. Her index doesn't even include Pleiades! There are lots of New Age types out there who believe that benevolent aliens, the Pleiadeans, are trying to help humanity evolve to higher consciousness. There

are umpteen versions of this idea featuring other star systems. There are hostile as well as helpful aliens. In Sedona, Arizona, the New Age mecca (and elsewhere, I'm sure) you can purchase pamphlets mapping the alien bases underneath the Red Rock country, and describing the aerial warfare between the Good and Bad Aliens over the Arizona skies!! I'm sure that there are people who sincerely believe in UFOs without any of this supernatural apparatus. Simple enough, it's fun to believe in the possibility of exciting things that might exist. Denzler discusses pseudo-science, and that is a different category from the New Age beliefs. But why

and how do people believe in Pleiadeans, and create and embellish elaborate mythologies involving extraterrestrials as angels, demons and demigods? How do abduction beliefs spread in a population? There's a great book out there waiting to be written...
