### REVIEW OF ENGINE DIAGRAM OF GOLF MK1

- In these times, when is very easy to publish books, A Christmas Carol of Dickens shows that the classics became classics because they are high level books.
- Charles Dickens writes this story in such detail that you almost believe you have just enjoyed Christmas dinner at the Cratchits home. The characters have so much depth. The made-for-t.v. or movie screen renditions do not truly depict what Ebenezer Scrooge witnesses with the three

spirits that causes such a change in his outlook on life. Such as Scrooge's emotions being quickened by the past heartache in his childhood; seeing how his bad choices caused the hardening of his heart and how deeply it cost him in the end; seeing what could have been his to enjoy and then thinking it could still be his with the Spirit of Christmas Present only to find out the future does not hold any love or joy for him by the Spirit of Christmas Yet to Come and instead his actions leave him robbed at death and no one left to grieve for him. Read the book to hear how this story was really written. Even if you have seen every Christmas Carol movie every made, the book will offer so many gold nuggets that you will think you are hearing it for the very first time. Pictures are beautifully detailed throughout the book. Excellent!!!
