REVIEW OF PLATINUM GRADE 9 MATHEMATICS CAPS TEACHERS

- ---Summary---That's a classic book arguing that management of people can be simple (one minute) by applying three basic concepts: Goal setting, praising, reprimand. There is one key concept stating that it's easier to learn by knowing what to do (i.e. what
- This is a very poorly

written book. The author comes across as being too smart by half. For instance she writes of a radio station XELO out of Del Rio, Texas that had an early influence on Imus. She goes on to explain that the station got around FCC transmitter power limitations by locating the transmitter in Juarez. If she had checked her geography she would have noted that Juarez is about 400 miles from Del Rio and the transmitter was actually located across the Rio Grande

from Del Rio in what was then called Villa Cuna. She goes on to tell of Imus and his friends doing parodies on a con man named Billy Sol Estes, whom she writes was involved in a salad oil scam, when in fact it was chattle mortgages on fertilizer tanks. This may seem like nit picking but given these inaccuracies how does one accept the rest of this book, or any of her other books as being factual? She does give some insights into Imus's character and background that are interesting.....if true.
