## **REVIEW OF INTRODUCTION TO LINEAR ALGEBRA STRANG PDF**

- This latest work by award-winning poet Sherod Santos -- who has been referred to in reviews as both Keatsean and Rilke-like -- breaks with the conventions of the genre to create a montage of untitled

meditations, narrative prose, memory fragments and songlike passages, as well as verse. Less a collection of thematically related pieces than a prolonged inquiry, "The City of Women" represents, as Santos writes in the first of the work's three parts, "the story of my life/In love,the buried life I know little about,/Perhaps know nothing at all."The raw beauty of Santos's images and the musical grace of his language wash soothingly over the imagination, lending even the darker portions of his work -- and there are many -- an elegance that somehow makes the terrible more bearable.Santos does not shy away from the more unseemly, ugly aspects of interactions between men and women, nor does he portray himself as the protagonist above reproach. Even as one

is "in" love, he tells us, it is possible to feel sad, lonely and bereft. Every alliance, he seems to conclude, will spawn its share of betrayals great and small, recriminations, shame. Yet "The City of Women" is not driven by a nihilistic vision. Throughout the poem-sequence, we are treated to divine glimpses of love at its best; even his parents' doomed marriage, Santos says, provided evidence of the power of love

to rise above individual failings. While Santos provides few comforting answers for his readers, by the end of this work we understand better what the questions are. He offers this stark examination of his own vulnerabilities and frailties so that we may be courageous enough to face our own.

- THIS WAS A GIFT FOR SOMEONE WHO SPECIFICALLY ASKED FOR IT SO I AM SURE IT WAS A GOOD READ.
