## REVIEW OF PLUMBING ELECTRICITY ACOUSTICS SUSTAINABLE DESIGN METHODS FOR ARCHITECTURE

- Nice critic about inquisition times combined with a great introduction to small gods concept for those not familiar

with it. Makes you think about faith while it makes you laugh about everything. If I had not read better Pratchett's books, I would have rated this with a five

- Terry Pratchet is very rare today. He actually writes satire that is very funny. Small Gods is about the rise of a new religion through simple belief. He satires the idea of church, but not faith. If you do not have a sense of humor when it comes to religion, this book is not for you. His story unfolds that every religion starts out with good intentions, but ends up mired in dogma. You can't but help to love the turtle god and his half-wit follower. The scene with the god and an eagle is a true classic of modern writing. This book is part of the famous discworld series, but stands alone and apart. This is a good book for a new reader to Pratchett to start. If you liked Douglass Adams or satire, then you will love Terry Pratchett. You will spend most of the time laughing along with the story.
