REVIEW OF BARBIE THREE CHEERS FOR BECKY

• I say first-runner up, because as an avid Miss America fan, I don't think the winning tome had yet to be published. In the meantime, Ms. Bivan' book is a treat. Very thoroughly researched, and nicely illustrated. Many black and white photo. Some color photos, but it definitely could use more, and from a larger range of years. My complaint was that it seemed a "puff piece", written by someone a little too closely involved with the MAO program -- and therefore lost some objectivity in reporting of some pageant scandals of yore -- and let's face it, those are some of the most fun in a pageant history book. Nonetheless, this is clearly a work of love on Miss Bivan's part, and a must for anyone who is a Miss America devotee. But I'm still waiting for the MAO book that will take the tiara.

• This is one of Heinlein's four Hugo-winning novels. A rather lightweight actor is shanghaied away from Earth and more or less forced to impersonate a kidnapped politician. As he understands what the politician stands for, he falls more willingly into the role. The politician is recovered, but in such condition that the actor must remain in the role, and when the politician dies, adopt it for life.Lorenzo's transformation from lightweight actor to Churchillian libertarian politician is interesting to watch, and the science fiction is not essential to the plot--the Empire could, with some plot modifications, be in Roman times, or the British Empire, or in the twentieth century.Two problems: We see two sorts of characters we encounter too often in Heinlein's later books here--the two-dimensional female (Penny) and the yammerhead (Bill). It strains credibility that someone like Bonforte would tolerate someone like Bill near him for several years (sure, he does good work, but surely there would be thousands of nicer competant people available to a high-level politician), but the plot needs a bad guy close enough for the readers to focus on. But we see too many Pennys and Bills in the later Heinleins. Second problem: Heinlein's parliamentary system is ill-thought out.

Wouldn't the Grand Assembly be heavily dominated by Asians? Yet, all of Bonforte's associates are American or English. (I don't think we even see an Asian, other than the Emperor's attache. Where's Quiroga from? South America?) How is it, in a Grand Assembly where the districts must have the

population of New York City (say, 800 members, 8,000,000 per district), that there can be "pocket boroughs"--districts for space pilots, and university women, and a district for Lapland? And, would these districts be content to have their representatives be Mr. Bonforte's secretary and crew? Still, a great book.
