REVIEW OF HOLT PHYSICS CHAPTER 3 TEST B

- The authors have a refreshing collective voice, and it's so great to finally be encouraged, rather than be told the usual statistic, 'only 30% of

women have orgasms-- you should just be content as you are.' I am so thankful that I found this book by chance; I'm buying copies for friends already.

- I have always had wonderful success

with the even used items I buy through Amazon. The book was like new and of course the book itself was very well written, it also gives an insite on another culture.
