REVIEW OF JENSEN VM8113 USER GUIDE

- This is definitely my favorite book of all times. I can read it over and over again. Very well thought out, very well written. It is too bad that modern books are not written as well!
- Ok... so truth be told, I only started to read this book because of the movie "Definitely, Maybe". The way the character in the movie described the book made me think I might like to read it. I was not disappointed. I find that some of the "classics" are a bit boring and hard to follow. This one was neither. The orphaned girl hated by her family finds love. And love finds her as well. But it wouldn't make for an interesting story if there weren't hills to climb. Over all I would say that this is one of those classics that has most definitely earned the classification.
