REVIEW OF RANKING TASK EXERCISES IN PHYSICS STUDENT EDITION ANSWERS

- This book really draws you in. The plot is intriguing, the pacing is flawless, and there are a great many insightful observations about society to be found between the pages. Too bad they did such an atrocious job with the film adaption.
- This is an outstanding collection of the best know shorter works by Steinbeck, or more accurately a collection of his

novellas. The writing is exceptional and this is a highly recommended buy. The stories are short and they cannot be compared with his best known novel "Grapes of Wrath." But this is a superb collection containing his best short work and first novel "Of Mice and Men." Also, it contains "Cannery Row," another great story. And, it has his interesting novel "The Moon is Down." It is about resistance to an invading force. We can assume that it is probably Norway during World War II, and their resistance to Germany, but Steinbeck keeps it a bit vague which broadens the appeal of the book. It could apply to any invading force. John Steinbeck (1902 - 1968) was among the best known American writers of the 20th century. He won the 1962 Nobel Prize for literature. His 1939

Pulitzer Prize winning novel, "Grapes of Wrath" has over ten million copies in print. Steinbeck was born in rural California, went to Stanford, and spent most of his life in California. He has been associated with the plight of farm workers and others. His books have been very popular and many were made into movies and stage productions. He won an Academy Award nomination for best story in 1944. I have read a number of his novels and am still surprised with the quality of his work - especially his short stories and short novels, so the present collection is a great buy. The collection has his famous short works and is not a heavy read. Each of the works takes one evening to read. I liked all the stories. Readers will appreciate the clarity of the prose, the characters, and the

messages. This is a great value purchase and an interesting reading experience.
