unlock the possibility for a richer, much more satisfying learning experience.

REVIEW OF WHEN WE FIGHT WE WIN TWENTY FIRST CENTURY SOCIAL MOVEMENTS AND THE ACTIVISTS THAT ARE TRANSFORMING OUR WORLD

- Basically this is the only book available that deals with EJB and Oracle Application Server. But the book is outdated. Basically handles only EJB1.0 spec, so the deployment descriptors are old. It does not cover Entity Beans. So if you are using Oracle 8.1.7 or Oracle 9 i App Server, this book is out dated for you. The flow of topics could have been better. Any way we dont have much choice, as this is the only book on this topic.

- Last year, I found the Oracle8i SQLJ Programming book (by Morisseau-Leroy, Solomon, and Momplaisir) while surfing for a book on SQLJ. I must say that the Oracle8i SQLJ book is an excellent book indeed, and the ONLY worth reading book on SQLJ. When, I saw on amazon.com the advertising about the Oracle8i Java Component Book (by the same authors), I quickly purchased it. So far, I have read the first three chapters. The first chapter two chapters introduce the concepts of component-based applications using JDBC and SQLJ and Web applications, while the third one takes you straight in EJB. A note of caution, the Oracle8i Java Component Book is an advanced book on component concepts and assumes that the reader knows SQL, PL/SQL, Java, JDBC, SQLJ, and Oracle database. Extremely informative. I strongly recommend this book.
