REVIEW OF THERMAL ENGINEERING BY MAHESH M RATHORE

- This rating has to do with this publisher and not the content of the book itself. The book is a classic, which speaks for itself in that many people have connected with it and found it interesting. The publisher on the other hand should be named "the bottom of the barrel", "instead of "the bottom of the hill". They printed one page of a 12 page Introduction and the book has many typing errors which at time makes getting the meaning difficult. I suggest finding another version.

- For music-heads Norwegian Kim Hiorthy is probably best known for the cover design for the Rune Gramofon label and videos and covers for the Motorpsycho band. "Tree Weekend" is a beautiful full-colour book with photos, sketches and other graphics. Playful and highly personal indeed. Recommended.
