With these suggestions, you can find the right Statistics 11th Edition Anderson Sweeney Williams book

recaps for your rate of interests and preferences. Delighted reading!

## **REVIEW OF STATISTICS 11TH EDITION ANDERSON SWEENEY WILLIAMS**

- **REVIEWED BY:** Wayne Walker This book was recommended to us by a friend. Ten-year-old William, whose parents both work, is losing his beloved governess, Mrs. Phillips, who is moving back to England. As a going-away present, she gives him an old, real-looking model of a castle made out of stone and wood and a finger-high lead knight to guard it. William is certain that there must be something magical

about it, and sure enough, when he holds the tiny knight, it comes alive in his hand. Sir Simon tells William that a sorcerer had used magic to steal his kingdom and turn him into lead. In fact, just before he became completely leaden, he grabbed part of the sorcerer's necklace which can make things small. William uses it to make Mrs. Phillips small so he can keep her, but after he sees how sad she is, he agrees to be made small so that he can help Sir Simon defeat the sorcerer and get the other part of the necklace that can make Mrs. Phillips normal sized again. Those who do not like books with any "magic" in them will want to avoid this one, but otherwise, besides a

reference or two to drinking ale, there is nothing objectionable in this book, and there are several good character traits represented, including loyalty to friends, overcoming fears, and being sorry enough for one's mistakes to do whatever is needed to correct them. Both twelve-year-old Jeremy, to whom I read it aloud before bedtime, and I thoroughly enjoyed it. There is a sequel, *The Battle for the Castle*.

- Man, this book was neat. I loved it. *The Castle in the Attic* is a great book for people who love adventure. William is a 10 year-old boy who loves gymnastics and loves his nanny Mrs. Phillips who takes care of him.

Mrs. Phillips is an elder woman and very much fun to William. One day, William finds out that Mrs. Phillips has to leave. He tries everything to stop her, but nothing works. Before she leaves, she gives William a toy castle and a silver knight that one day is supposed to come alive. When Mrs. Phillips goes to her bus stop to leave, the strangest thing happened. She never set foot past William's front walkway. Where does she end up? What adventure lies in William's hands? All I can say though is the author is trying to tell us "You don't always get what you wish for". If you read this book, I hope you enjoy it as much as I did.
