REVIEW OF DELHI POLYTECHNIC SAMPLE PAPERS

- This is an amazing book by one of the most iconic writers in recent history! If you or a friend is wondering if there is a God and if there is, is He the God of Christianity- you need to read this book. C.S. has a fabulous writing style that explains Christianity so well.

- I have read many books to explain Christianity and this one has a special place in my heart. I am an avid golfer and had taken many golf lessons early in my golfing exploits. I then purchased a book called, "The Little Red Book" (no kidding) written by the infamous Harvey Penick (now deceased). The instructions and antidotes in "The Little Red Book" were entertaining, simple and straight to the point. After reading this book, I gradually started lowering my score and had much more fun playing golf. So... you might say... who is this nut case, does he know he is supposed to be reviewing "Mere Christianity" by CS Lewis.... My point... The Little Red Book is to Golf as Mere Christianity is to our Christian walk. CS Lewis manages to eloquently speak from his gut about his own Christian belief. His thoughts are not mere rumblings of someone high on God, but rather a thoughtful discussion about his faith. Not just what he believes, but what that belief looks like in acting out his human existence. As many other responders have written, CS Lewis was an atheist... Something made him change his mind.... And this book exposes his exact thought process. This is a great read for existing Christians, a great read for new Christians, a good read for philosophers and was very enjoyable. We lost a great writer when we lost CS Lewis!! I imagine he is sitting with Jesus in heaven talking up a storm now.
