## **REVIEW OF GRADE 12 CAPS MATHS PAPER 1 13 MARCH 2014 MEMORY**

- Morag Joss writes well, but I would not put this book in the class of a true mystery. It takes ages to get through it, long paragraphs of descriptions of gardens, etc., whole bios of all the characters,

even minor ones, that, though interesting, are not necessary. The romance issue between the two protagonists is drawn out agonizingly. Will Andrew leave his wife for Sara? Andrew's marriage is one that has grown boring, Sara and he have so much more in common, but he frets about his children should he leave Valerie. At the end of it all, one is not too sure one cares. I kept saying to myself, let's get back to the mystery, if there is one.

- This is a fantastic book for those people who are slowly losing their grip on reality. While some of the basic underlying concepts are good I don't find myself practically applying the concept of psychic prisons to my organisation, nor do I view my staff as amoebas that make up a large organism. I have to admit though that I know of others who found the paradigm of organisations as instruments of domination highly arousing.
