REVIEW OF PREDICTIVE ANALYTICS THE POWER TO PREDICT WHO WILL CLICK BUY LIE OR DIE

- The Quran is what I grew reading and

memorizing. It is where I got my inspiration; no wonder I choose to be an "infidel" on my own. Read with me some verses of the Quran and get inspired on what it has to say on Women on the 4th chapter (sura) verse 34:As for those from whom ye fear rebellion, admonish them and banish them to beds apart, and scourge them. Did you read it? It says plainly to scourge the wife under some circumstances. Beat her up! And yet there are some dumb American women who would tell me that they found the Quran more inspiring than the Bible. That is absolutely DUMB! Here is another verse in the Quran in the 9th chapter about how Muslims will subjugate Non-Muslims under their rule and "HUMILIATE" them. Get it! It is verse 29.29 Fight against such of those who

have been given the Scripture as believe not in Allah nor the Last Day, and forbid not that which Allah hath forbidden by His messenger, and follow not the Religion of Truth, until they pay the tribute readily, being brought low. This is a plain command to the Muslim to FIGHT non Muslims until the Non Muslim is twisted in his arm and has no choice but Islam or Isalm. It says in Arabic "wa hum sagheroon" i.e. with humiliation. Humiliate the Non Muslim while paying tax tribute till he succumbs to Islam. And I still hear dumb people getting carried away by what is Un-American, just the very fact that it is Un-American to them and the grass to them is greener on the other side of the fence! since we live in the Bible Belt and people drool over what is exotic! That is dumb!

- I understand that, at the time this translation was written, Muslims were commonly known as 'Muhammadans.' When read in the ancient texts, the same friend (head of the Muslim Student Association at Rice University) also let me know that the Quran, Hebrew Bible, and Christian New Testament all read with the same literary style. This is a very accessible translation that keeps the poetic style intact, but there are better embodiments of the grace of this Holy Book. That aside, I was surprised at how similar the Quran was to the Biblical scriptures. The stories can almost invariably be found in the Bible, with additional interpretation and context given by Muhammad's revelations. The identity of God moves from One to Three in the New Testament, then to One

almost as 'We' in the Quran. I doubt that this is the tone of the original work, but at times God sounds very much like the Borg in Star Trek, speaking with all of his angels simultaneously. I was also surprised as to just how much of a place

Jesus has in the Quran. Definitely worth reading. A safe bet for someone looking for a straight translation of the Muslim Holy Book, but I'll bet one can do better by asking around and visiting a few libraries.
