REVIEW OF MANAGEMENT INFORMATION SYSTEMS MANAGING THE DIGITAL FIRM 12TH EDITION EBOOK

- I actually thought this was going to be a good book, but came away feeling depressed at how pitiful an attempt this was to describe an eastern philosophy. No doubt, the book has sold purely on its hook of having the famous little bear, Pooh, on it's cover. Nevertheless, the only handful of passages that made the whole endeavor worthwhile in this little waste of time came from other passages taken out of REAL books such as Tae Te Ching. Otherwise, the author here is one of those hippie types who, by his own admission, likes to lay about on the floor. Must be nice while the rest of us go to work to earn money to buy cute little books with Winnie the Pooh on the cover. Whatever.

- I never really liked Winnie. I heard the stories about the little dumb bear & his friends, but they made me feeling irritated. Then i found this book, and since I've been reading a lot bout eastern religions and philosophies, I thought that maybe Taoism would be what I was searching for. This book introduced me to Tao in a very joyful kind of way, and it gave me a better opinion of Winnie too: his not really dumb at all, he's just happy, and that's what Taoism is all about.
