So what are you waiting for? Start your A320 Quick Study Guide downloading and install trip today and experience all the advantages and benefit that the electronic globe of publications needs to offer!

REVIEW OF A320 QUICK STUDY GUIDE

- I'm not sure where this Guide falls in line with the others chronologically but I want to say it's Phil's first one because it's

not as 'clean' as the others; however this is the last one I purchased. I also don't recall how I came across the Nitpicker's Guides but I enjoy every one of them because they offer a deeper look into each episode, which causes you to notice things you didn't before, and this is coming from someone who considers himself quite observant. While all of the 'nits' mentioned may be just that, extremely nitpicky and easily rationalized, this book is in no way official and strictly for entertainment purposes by fans of the series. Unfortunately due to legal reasons there is only one volume of this Guide, so the whole show is not covered, but the website started by the author (nitcentral) is still up and running if you're curious. I rated this book four stars because I'm not as big a fan of the X-Files as I am of Star Trek; the topic(s) of the other Guides, and I've only seen probably a season-worth of episodes, so the many references to eps were wholly lost on me. I do greatly enjoy the show but I have a lot of catching up to do. I was also displeased with the fact that I ordered this book in "new" condition and it was most definately NOT.

- I didn't expect to laugh so much. I know autism is a serious subject and that there is grief and pain involved for the parents. Those are included here, touched on, lightly. The trip to Peggy's Cove, for example, showed the heartache of this mother of an only child. But Jennifer Overton's book "Snapshots of Autism" is really a song for her beautiful son, and parts of it are amazingly funny. I think that's what makes this book so real and so touching. Jennifer does discuss Lovaas and ABA and various other kinds of teaching and dietary theories in her search for just the right things to make Nic's life easier. But mostly this book is

about the *inside* of their family--- the real deal, the gut-level day-to-day life with an autistic child. Shattered dreams replaced slowly with new hopes. The celebration of small triumphs. Laughter. And a lot of love. This is an amazing book!
