## REVIEW OF

## **MATHEMATICS N3 QUESTION PAPERS**

- Loved the book. Decided to purchase it for my new Kindal so I could always have it with me in case I wanted to re-read it.

- Having read a small, cheaply printed paperback many times as a teen and after, having such a large and handsome edition is a real treat! The illustrations are top notch and as many have mentioned, the

inspiration a great deal of the production design in the LOTR movies. Simply beautiful, and my son, five yrs old, loves the story which is a joy to read aloud. In fact, though I read it to myself all of the other times, I now realize it was so obviously written to be read aloud! And Tolkien makes it easy. The words beg to be acted out and dramatized as it's recited; an aspect I really had not realized before.
