REVIEW OF MATHEMATICAL LITERACY PAPER 1 JUNE 2014

- Timothy Johnson spins a good yarn. This book is an easy read.Race Through the Forest does not include a lot of "how to", so the reader would need to be an accomplished project manager to glean a lot of practical use. It is a high-level story that seems best used to convince executives the value of project management in an organization that is skeptical.
- Promotes a self-serving theory that teens are becoming "pan-sexual;" encourages rejection of "gender-categories;" and that the ultimate goal for teens should be to feel comfortable having sex with either boys or girls. Irresponsible and damaging to teens who are navigating through normal adolescent experiences. No good can come from the oppressed becoming the oppressor, bending all to their beliefs. Why can't a boy feel close or emotionally connected to another boy without being labeled as "gay" or "bi-sexual?" i.e., Isn't it possible that a teenage boy who likes fashion is just that: a teen-aged boy who likes fashion? Why is a "Gay is cool; straight is homophobic" agenda allowed to predominate in the media? Reprehensible tripe. Teach tolerance, not lies.
