REVIEW OF CAMPBELL ESSENTIAL BIOLOGY 6TH EDITION

- J. Polidoro has written an amazing book! I could not put this book down and found myself dissolving into tears as the tragedy unfolds. His technical description is fascinating -- I will never take flying for granted again. He also has an amazing gift for character development in a realistic and believable style. I spent a whole afternoon reading this book because I couldn't put it down until I finished it. Hope to see more from Jack Polidoro soon!
- This is a well written book that just won't stop. You see the end from about page 20, but it keeps on with the story anyway. It's romance pure and simple. No complicated subplots. By about page 50, you feel like yelling "What are you, blind" to the two major characters. Alas they are. Read it if you like a good love affair. I don't.
