REVIEW OF DEEP FOCUS REFLECTIONS ON CINEMA SATYAJIT RAY

- The Hungry Thing books are great but unfortunately out of print. This was the next best thing to new! My five year old Granddaughter loves it.

- I picked up The Number hoping for some practical tips--maybe formulas and exercises to help me plan for the future. But halfway into the book, I was so depressed I could barely muster the energy to turn the page. People with many millions more than me are worried to death that they don't have enough for retirement. And here I was thinking we were pretty well prepared to retire comfortably. Clearly, I'm completely out of touch--or else Eisenberg is. Eisenberg's world is downright unpleasant--he says people are more willing to talk about what kinds of animals they are, uh, cozying up to than they are to talk about how much is in their retirement savings. All the top-earners he writes about either support mistresses, or would be suicidal to have to give up their Paris chateaus in retirement. And, he says, there are only four types of people when it comes to retirement planning--all of them hopelessly naive or stupid. He goes on in fine Chicken Little style (he is a journalist, after all) to tell us how unprepared baby boomers are to retire, how unprepared everyone is. This is helping me how? In fairness to Eisenberg, I'll admit that I didn't read to the end. Maybe it gets a lot better in the last 50 pages. But just as I wouldn't sit and listen to someone's narcissistic complaining for hours on end, I just couldn't hold out long enough to get to whatever reward might be at the end of this book. This book appears to be selling

well--and maybe that was the point. at least Eisenberg is closer to his
Although I'm no better off for buying it, Number.
