And if you ever need help locating the best book, our well-informed team is right here to supply customized referrals.

## **REVIEW OF DEMAND DRIVEN STRATEGIC PLANNING BY FAVA NEVES MARCOS ROUTLEDGE2012 PAPERBACK**

- First published in 1975, this book is a grand accomplishment which has dug out of the rubble of all the crap that has been written about the infamous Bermuda Triangle. After reading this book, I found that a good number of the disappearances occurred outside of the alleged area. The sources were right

there, but why Kusche and his book is neglected still today by fans and loyalists to the Triangle is a mystery. This book is essential and should be made compulsory reading for all students that wish to take a more radical and realist approach to this mystery. We should all be grateful that we still have writers that wish to state FACTS and not plain FICTION!

- Siitenfeld has captured so many of the nuances of high school life: the insecurity, the self-doubt, the struggle to find others one feels comfortable with, the perpetual embarrassment, the conflicts with parents, the academic difficulties, and of course, the failed relationships. This book was different from other coming-of-age novels in that it was actually a page-turner filled with unexpected twists and turns. There were parts that I found somewhat cheesy, but overall, I really identified and understood

this often-flawed protagonist Lee Fiora. I was rooting for her, even when she made the wrong decisions and said the wrong things. I should warn some readers, though: This book definitely takes a turn in the last 130 pages or so, and becomes pretty explicit and inappropriate for young readers. Parents should preview this book before recommending it for high school age girls, because without some guidance, I think the last part of the book -- which does have some valuable lessons to teach girls in particular -- could be misunderstood by young readers as something that people SHOULD do rather, rather than something which they should not. Adolescence is complicated, and unfortunately, we often learn lessons after we've made mistakes. Sittenfeld articulates this quite well, and I commend her efforts on this one. Although flawed at times, this novel does prove to be a very enjoyable read.
