REVIEW OF HORNADY H OF CARTRIDGE RELOADING 9TH

EDITION

- This was a great addition to my collection of vegetarian recipe books. Not only does it list authentic vegan Italian recipes of all kinds, it explains every ingredient and gives background on Italian food and veganism in general, without dwelling on things we already know as informed vegetarians! It would make a good gift for anyone who loves to cook, vegetarian or not.
- I have to take issue with those reviewers who have attacked this book so passionately! True, there are "gourmet" cooks who wouldn't dream of adding any prepared foods to their recipes; they obviously have the time and energy to spend hours in the kitchen every day. However, I don't understand

why a "gourmet" cook would even consider buying a book entitled "Semi-Homemade" anything! This book was obviously written for people like me, who no longer have the time or energy to spend all day in the kitchen, and "Semi-Homemade Cooking" has been the answer to my prayers! I probably own a hundred cookbooks, most of them gathering dust on a bookshelf in the living room. I've been cooking for forty years, and only a few cookbooks have stood the test of time well enough to remain on my kitchen counter; this is the newest one to make the grade. No, I do not consider myself a "gourmet" cook. I used to make complicated, time-consuming dishes that took hours and hours, but, frankly, many of them

weren't any better than my favorite quick & easy recipes! And at 63, I want recipes that I can put together quickly and that everyone will enjoy. I am having a great time trying one recipe after another from this cookbook because none of them have taken a lot of time, and every single one has been delicious! Try Country Biscuits and Gravy, for example; my husband asks for it every Sunday. And Salad Chinois (Chinese Chicken Salad) is superb! Bottom line: This is not a book for food snobs! This is a book for people who want delicious meals they can prepare themselves with a minimum of fuss. Try it, you'll love it! Many thanks to Sandra Lee -- I'm ordering "Semi-Homemade II".
