## **REVIEW OF WOULD YOU KILL THE FAT MAN BY DAVID EDMONDS**

- I have read this book many many times and I still get scared. The plot moves very well and keeps your attention. The characters are true to the show. As far as Anderson's writing, I liked Goblins and Ruins as well, but I'd have to say that this one was my favorites.

- I bought this book eight years ago, and to this day as I bring out the Fall/Halloween decorations, it's the first object my children go for! Even at five & seven they want this little treasure read over & over again! A lovely little story about a lovely ,lonely cat on Halloween. My children have named real & stuffed cats after the star character! A true delight for all ages to read/or to be read to/or to read to someone. Why not make it a part of Your Family Fall Tradition?
