### **REVIEW OF ENGINEERING MATH 2ND SEMESTER QUESTION PAPER**

- I first read this in high school and have since then read it many more times. Dumas is a master plot creator, and this is his best. Nothing is harder to do, and more important, than the creation of an ingenious, original, complex plot. This is what holds all of the threads together, the characterizations, the motives, the scenes. Dumas is one of the world's greatest in this regard. Then, Dumas' simple, direct style impels the reader along from page to page. The result of the plot and his style is, as just about

every reviewer remarks, a novel that one can't put down; if it were another 1500 pages, one still would want more!

- We've all been raised to assume that we're living in a patriarchy, but patriarchy only begins when childhood ends; Before that, every person on Earth lives in a matriarchy. The percentage of men in elementary school classrooms and in daycare centers is about the same as the percentage of women in senate chambers and in corporate board rooms (and the one will never change without the other). The first fifteen years

or so of our lives are spent almost exclusively in a female world, and the affect on boys is disastrous."Raising Cain" is nothing less than a plea to the matriarchal half of our society (and the men who relinquish to them) to discard the catastrophic dogma that boys should be dealt with as if they were substandard girls. If you read this as a woman, be prepared to discover that forty years of Feminism was only half the story. If you read this as a man, be prepared to cry for your father, for your brothers, for your sons, for yourself.
