**REVIEW OF DESIGN OF TRANSMISSION ELEMENTS BY TJ PRABHU**

- I really love all Kay Scarpetta novels, and I was really excited to get to read Black Notice. I liked the plot, it's worth reading it. The only thing I didn't like is Scarpetta being involved with a much younger man. It just ain't 'Scarpetta like'. And it seemed as though the idea was taken from two others of Cornwell's novels I also read, Horning's Nest and Southern Cross. Still, I really recommend it. and I'm already looking forward to the next one.

- The rich descriptions of the era and the painting techniques are wonderful, however the story can be a bit jumpy at times. Like all books of this style (aka Dan Brown-type historical novels), you never know what is fact and what is fiction, which adds to the drama but is frustrating for those truly interested in art history.
