REVIEW OF GLENCOE GEOMETRY CH 7 TEST FORM B

- "Tess of the d'Urbervilles" describes the experiences of a woman who, through no fault of her own, falls outside of the moral code of the Victorian era in which she lives and suffers long-reaching consequences as a social outcast.

Hardy's novel is carefully well-drawn, but the novel's content demands far more than Hardy could acceptably give it in the nineteenth century. For example, the rape scene is only carefully stepped around, inferrable only from the fact that Tess subsequently has a child; Hardy also has to carefully frame some of the scenes, such as that of Alec d'Urberville's murder, in order to avoid too closely examining the psyche of the criminal. Hardy's writing is at its best in the scenes surrounding Angel and Tess's estrangement - a safe enough environment - when he can freely move

within the minds of his characters. In short, "Tess" is the stuff of a twentieth-century novel written in the nineteenth, which leaves some of the emotion that modern readers are accustomed to lacking.

- The story was told by an experienced storyteller. The outcome somewhat predictable given the fact that tragedy struck in the very beginning. I loved the characters and found them to be believable. The political situation hasn't changed much in some of these latin countries
