REVIEW OF 1995 FORD F SUPER DUTY SERVICE REPAIR SOFTWARE

- In my mind, The Lost King is Weis' finest novel. It is, by turns, intellectual, engaging, and moving. The futuristic world she describes is well thought out and is populated by appropriately complex characters. Simply brilliant.

- Good enough for most people. Not even close to good enough for someone who is at one of the best technology and engineering schools in the world. I was just going to use it for a casual reference text. But I found out I had already memorized almost all the content so this book was almost useless for me.
