REVIEW OF CHESTERS FLASHCARDS

- I love to read and Faulkner is at his best in this book. It is not an easy romp through the pages, but with patience and the ability to watch for key nouns and verbs, you will enjoy this book with the layers of intrigue it offers. Kind of like peeling an onion to get to the core. Faulkner's style is unmistakable and takes some practice to enjoy and decipher. Few beginning readers should be turned loose on their own to cut their literary teeth on this author, however.

- This was Conrad's first novel, and I think it's an underappreciated jewel. It's written with a typical Victorian plotline, and one part of it has a romantic couple seeking their own happy ending, but don't be mistaken - it's real Conrad, so there's the glorious Conradian gloom, fear and descent into madness, too. It's a tale about a Dutchman in a business-gone-bad stranded in the Indonesian boondocks with his witch-like Malay wife who wishes him all the ill in the world. His only hope in life anymore is for his beautiful daughter and he dreams constantly of getting her educated and married off back in Amsterdam so he can wash his hands of his island nightmare and go back to normal life in Europe. But she grows up, grows distant to him, and he's clueless about the reality that she's adopted the local style and wants to be there. A handsome Balinese prince seeks her hand and the plot cranks into motion, spinning to a thrilling climax. It's an interesting study of problems of interracial, intercultural interaction, as valid today as it was in the late 19th century. The visual picture it paints of the old Dutch East Indies - the rivers, the tangled jungle flowers and the wildlife is another of its finest points.
