As we begin the twenty-first century, technological, economic, political, and social forces have created a new era. Technological advancements and lower trade barriers have paved the way for the globalization of markets, bringing intense competition to the U.S. economy. Political systems and movements around the world are having a profound impact on our national

security, as well as on our human security. The increasing diversity of our workplaces, schools, and communities is changing the face of our society. To confront the twenty-first century challenges to our economy and national security, our education system must be strengthened to increase the foreign language skills and cultural awareness of our students. America's continued global leadership will depend on our students' abilities to interact with the world community both inside and outside our borders. In this executive summary, the Committee for Economic Development recommends that (1) international content should be taught across the curriculum and at all levels of learning, to expand American students' knowledge of other countries and cultures; (2) expand the training pipeline at every level of education to address the paucity of Americans fluent in foreign languages, especially critical, less commonly taught languages; and (3) national leaders--political leaders, as well as the business and philanthropic communities, and the media--should inform the public about the importance of improving education in foreign languages and international studies. REVIEW OF HEINTZ AND PARRY COLLEGE ACCOUNTING 21ST EDITION

- This is certainly a book for beginners. If you're at all experienced in real estate investment, then you should probably skip it. If, however, you're trying to break into the real estate investment business but lack cash, credit, and much knowledge on what to do with distressed properties and/or distressed sellers, then this could be a great place to start. Your education won't end here, but it could start (and you don't have to sign up for expensive seminars...but you will probably have to join a local real estate investment association and get hooked up with people willing to teach you). Did

anyone really think they were going to get all of the information they needed in a \$20 book? Of course not...but there is certainly enough good information here for a complete novice to justify a \$20 investment. If you read this book, either the light-bulb will go off over your head or it won't. You'll either get motivated to get out there and do a deal (or at least try), or you won't. Just remember...to have something you have never had, you must do something you have never done.

- Here's one British reader who is feeling generous this morning so has given 'Aiding and Abetting' two stars instead of one...The seventh Earl of Lucan disappeared on November 7, 1974, having bludgeoned the child-minder to death and failed to dispose of his wife in the same manner. By all accounts, he was a fairly useless individual, so it should come as no surprise that he mistook his intended target. If he is to be remembered (which seems fairly unlikely in the long term) it will be for the fact that, despite having no obvious talents or abilities (other than the consistent ability to lose at gambling), he has managed to evade the law for so long. Suspicion lies with the so-called nobility for having sheltered and financed him for so many years "...to protect his good name..." can you believe! If Muriel Spark is to be remembered, it will most likely be for 'The Prime of Miss Jean Brodie'. It will most certainly not be for 'Aiding and Abetting' which reads like an unfinished second draft. The sentence structure is impoverished, the characters lack either characterization or motivation, and the story is, frankly, stupid. Save your money... you'd do better buying a Superman comic.
