REVIEW OF MANUAL TRACTOR RENAULT ARES

• You won't need a dictionary nor thesaurus at your fingertips when you plunge into this ghetto classic. It's pretty basic. However...it fills all of my criteria for a successful narrative of criminal life. It starts fast and hard, and stays that way, slapping you around with ice cold reality. It seems quite authentic, but not having lived anything like the writer's purported "pimp'n" life, I can't say..it could be a large load of dung.It moves along furiously like a car that's late for an accident. The character has no discernible redeeming qualities, and makes no apologies for being a most unpleasant fellow. I found myself liking the guy, yet hoping that he would get brought down hard. I couldn't put the book down, and finished it in just a few hours.I had a hard time with the "hero's" name, "Whoreson". Do you pronounce it to rhyme with "Orson", or is it "Hoar-Sun"? I could not believe that anyone would ever name their child this way. That's really about the only false note I could find, aside from a strange bit of business toward the end. For overall impact and originality, I give this the coveted Five Stars, and will be looking forward to reading more from Mr. Goines.

• Interesting, perhaps eccentric, thesis on the origin and utility of human language, well-founded in evidence gathered from a wide variety of fields, including linguistics, neurology, and evolutionary psychology. In some cases, Dunbar seems a bit dismissive of others' hypotheses, but at least he gives them consideration (his objections don't always convince; but a stronger case would certainly require a more technical, and therefore less entertaining presentation). Strongly recommended for anyone interested in evolutionary psychology or cultural anthropology
