LAB MANUAL

- Forget the silly "Nightingale" series and read two of the novels that changed my mind about the Romance genre for the better. I'm speaking of Judith Lansdowne's "Legion's Ladies" and "Amelia's Intrigue", the latter you'll have to scour second hand book stores for, I fear. I couldn't put either of books down - not because of the (of course) love story, but because Ms. Lansdowne writes *friendships* so beautifully! I fell madly for Legion and saw him through the eyes of friends and relatives, a tender, loveable, vulnerable, strong, witty, caring, beautiful man with the ability to change the lives of all those he comes in

contact with - he unwittingly makes others fall for his natural charm, both women and men. "Amelia's Intrigue" with two of fiction's most warm, loving, endearing men, is my favorite Lansdowne novel but "Legion's Ladies" is a very close second. Unfortunately her other novels seem to slip into the annoyingly patterned boy meets girl/miscommunication scenario with little thought to character development and friendships (which she does on par with the amazing Patricia Veryan).

- Taran has finally admitted his feeling for the Princess Eilonwy. The problem now is that he doesn't believe that his bloodlines are worthy of her. She is a

princess after all, and he is but a lowly assistant pig keeper, a orphan that does not know where he really came from. So he sets of with the ever faithful Gurgi as his companion in a quest to find out who he is. We are visited by several old friends from previous books in the series and introduced to a handful of new bad guys. I have to say the bad guys are getting better - or more badder? - as the series progresses and more and more inventive plans are needed to foil their plots. Taran learns much about himself through his journey and learns some very important lessons

along the way, with one of the most important being about who he really is. I loved the sorcerer, Morda. It seems all of man's faults are wrapped up quite nicely in one little package. Fflewddur returns with Llyan, such a wonderful friend that manages to save the day at least once. Kaw, the pesky crow shows us that help comes from the least likely places. And of course the faithful Gurgi, the best friend Taran could ever have is along for the ride. I think this will have to be my favorite so far in the series. With just one more left, The High King, I can't wait to see how everything ends. 4/5
