REVIEW OF CHILDREN EARTH SKY GUY GAVRIEL

- This book has a great deal of knowledge from beginner to advanced techniques. It is full of bud "porn" and pictures that only someone like Cervantes could get access to. Easy to read, and jump from section to section. No need to read cover to cover to get what you need.
- Jarrod Diamond has the unique ability to see populations and human history in a way that shows trends and common variables that help to determine the final outcome. Although not as compelling as "Guns, Germs and Steel", this is a great read and one that really gets you thinking.
