REVIEW OF LIFE INSURANCE UNDERWRITING SYLLABUS

- This was not an easy tale to read, and I have to admit that it took a few chapters read before I could truly delve in and appreciate the story. The story was well written, especially having been revised from the original 1937 writing. I am not disappointed; however, I am concerned that the movie version (2012) release will fail to include minute details detrimental to the theme. I highly recommend this book to be read by those seeking an adventure based on a different time period in another world.

- This book was great. The movie embellishes alot and leaves out just as much too. I was so excited to get this for 10 bucks! After reading this book I fell inlove with it, and the quality has me pleased as well as the book itself.The story is wonderful and if you are reading this review... read this book! You clearly have an intrest in it!!!
