diverse options for several years to come.

REVIEW OF GERAKAN ANTI PKR

- For anyone new to Apache, The Definitive Guide is, by far, the best bet. In a little over an hour, I understood enough about Apache to confidently add it to my resume under "working familiarity with..."-- no joke. This book demystifies virtually every issue a webmaster not expertly-versed in Linux/Unix-based website setups might run into when first trying to configure/test/optimize his or her standard production server. Once you realize that it's all about the httpd.conf file, you're well on your way to being able to maintain an Apache site. Buy this

book.

- The book starts well, with a strong female character but when Kit meets our hero she becomes irrational, irritating and weak time and time again. All it

takes is a kiss and Kit is unable to have a discussion about things that matter to her. Really, how sad is that she is so easily manipulated. I enjoy sex scenes but I'll confess that I skipped a lot of them out of irritation.
