REVIEW OF CHESNEYS EQUIPMENT FOR STUDENT RADIOGRAPHERS BY P H CARTER

- Chicken Soup for the Teenage Soul was a great book. It is filled with true stories (101 to be exact) and poems about teenagers, the troubles they faced, and how they got through them. It is truly an inspiration when you read it. This book speaks directly to teenagers and really makes the teenage reader feel like they are not the only one who feels certain ways. This book has stories about all different topics. It talks about relationships, friendships, love and kindness, family, tough stuff, learning lessons, making a difference and growing up. It touches on all different aspects of each of these topics. In one specific story, called Change for a Dollar, a boy who is slower than most kids his age is in line trying to get a dollar to go in the pop machine. He is having lots of trouble and soon everyone starts laughing at him. Then out of nowhere a girl from the popular table gets up and goes over to the pop machine. She tells him that they are sometimes hard to work and then gives him change for a dollar. This story was moving to me because it shows that you don't always have to do what everyone else expects you to do. That is just one example of a typical story in the book. I really like that one because it is something that happens everyday of my life. Kids are always making fun of other kids, and the book gives you inspiration to change that and do something about it. Many of the stories are not about everyday events though, some deal with people who have diseases or are close to someone who is dying. These types of stories can really help out someone who may be in the same situation. They may feel like they are the only person

in the world who knows how it feels, but when they read Chicken Soup, they realize that other people have gone through the same things and gotten through it alright. This book is one that you can read over and over again. You do not have to read it front to cover and you can skip around or read only about topics you are interested in. You can go back and read your favorite ones over again. If you are ever feeling blue, you can just pick up Chicken Soup and I guarantee it will lift your spirits. The stories in it are so uplifting and just make you feel good. I found that once I started reading Chicken Soup, I could not put it down. Each story makes you feel so good that you just want to keep reading. It lets you know that what we are all going through and feeling the same types of things. It makes you feel good to know that you are not alone. I think this book acts more as a friend than anything else. It is always there to comfort you and give you hope for a better

future. I would definitely recommend this to all teenagers. Even if you aren't dying of cancer, there are stories in here that can relate to every teenager. And the greatest part is that the book is made up of stories written by teenagers themselves so it definitely relates to them. This book overall just gives you a positive feeling when you are done.

- Wow. Someone is unhappy that O'Reilly publishes NT books. Though most of the solutions covered in the book did not apply to my company, it definitely presented the options in a clear, concise manner. We are investigating using a VPN for our NT/UNIX network, and the chapters on PPTP and the PIX were excellent. The overview chapters were helpful, though there could be more on software solutions other than the few presented.
