The second book in The Outlaw Preacher series finds James, aka Nine Ball facing intense spiritual and physical warfare from page one! There is no grace period from Outlaw to Evangelist and the enemy is a sore loser. The preacher is the target and the collateral damage begins immediately. This is hard core evangelism and it's not for the closet Christian or mamby pamby wishy washy, it's for contemporary warriors who recognize that we've been called to fight evil in our world. The Outlaw Preacher is a rough character who lives and loves at high speed. You will either love or hate this guy, but you cannot deny his love for the Lord or his woman, nor his devotion to his club.

The life of John Hancock, contemporary of Samuel Adams and Paul Revere and first to sign the Declaration of Independence is featured in this volume of the Young Patriots series. Detailing Hancock's early years, it focuses on his relationship with boyhood friend John Adams and his academic struggles with what he would later become most famous for - his writings. Hancock's famous achievements later in life are also chronicled, from attending the Boston Tea Party to becoming president of the Continental Congress. The entirety of his life is colorfully illustrated with renderings that convey the drama of the birth of the United States.

The Spirit-filled Life Disney-Hyperion

An ex-hacker, a sexy college professor, stolen top secret hardware, a cover-up, a kidnapping, a government conspiracy, hacked defense computers, FBI, CIA, NSA, Armageddon. An excerpt from the actual deposition transcripts: "Let the record reflect that this deposition commenced at 9:15 am on December the 3rd, 2004 at the FBI offices in Atlanta, Georgia. Present for this recording are Special Agent Alvin Dirk, the Honorable Judge Ramiro Vasquez, and the witness, Robert O. Blain. This deposition is merely a recording of the events which transpired at Norwood University and is not now nor ever will be part of any trial or prosecution. Go ahead." "My name is Bobby Blain. Most people seem to think it all started when Dr. Jennings hired me, and all the computers started getting hacked. It was easy for people to think that, because I have a history and got myself in some trouble when I was younger. I hacked some computers and almost got the president impeached, but it really started before that, when I still worked for Dr. Karlyn." "Dr. Karlyn gave me a chance to redeem myself by allowing me to work on his computer for him. Then one day, this scientist I had never seen before comes and gives Dr. Karlyn a device. I was never told what he wanted, but I think he wanted Dr. Karlyn to help him reverse engineer it. I was only asked to build an interface to attach it to the computer. Dr. Karlyn did the rest. I think he figured out how to turn it on, but when he did, strange things started to happen." "We didn't know it then, but it turns out the device was stolen from a government facility. I don't know where they got it, that is more classified than this deposition. I can tell you with absolute certainty that they didn't make it themselves. I'd like to tell you more, but I don't think I'm allowed." "Anyway, someone at the university needed to get Dr. Karlyn out of the way and falsely accused him of inappropriate conduct with a student. He could have fought it, the dean believed him, but he decides to leave the school anyway. Before he goes, he gives his computer to Professor Jennings and he gives me a letter of recommendation, so after I help deliver and setup the computer, she agrees to hire me." "The first night it is up and running, at least two attempts are made to hack into the computer. I forgot to mention that even before I deliver the computer, this guy tries to break in and steal something from it, but I was there and he didn't get anything." "I can't divulge any secrets about Professor Jennings' project here, but my part is to prove that her process would work if she were given enough computer resources, so I re-write her process to work across a network and run on thousands of computers." "That's when things got really crazy. Someone keeps trying to hack into our computer; someone hacks the entire school and the phone company. Professor Jennings' secretary is kidnapped. The FBI gets involved, but they're chasing the wrong people for reasons only they can tell you." "Then someone plants a virus on our computer and the next thing we know, it's spread all over the internet, including some very sensitive government computers. Meanwhile, our project continues to gain speed and surpass anyone's expectations." "When the FBI come in and learn that the device that was given to Dr. Karlyn is actually some super cool futuristic computer that is able to grow and build more circuits for itself, they want to disconnect the computer and confiscate it." "That's when computers all over the world go out of control. The pentagon and all the armed forces are helpless. Air traffic is grounded. All the computer problems are traced back to the professor's computer. The FBI want it dismantled more than ever, but the academics involved want to get the device to relinquish control over the

From the seventeenth century to the early years of the twentieth, the population of Martha’s Vineyard manifested an extremely high rate of profound hereditary deafness. In stark contrast to the experience of most deaf people in our own society, the Vineyarders who were born deaf were so thoroughly integrated into the daily life of the community that they were not seen—and did not see themselves—as handicapped or as a group apart. Deaf people were included in all aspects of life, such as town politics, jobs, church affairs, and social life. How was this possible? On the Vineyard, hearing and deaf islanders alike grew up speaking sign language. This unique sociolinguistic adaptation meant that the usual barriers to communication between the hearing and the deaf, which so isolate many deaf people today, did not exist.

If we could only get used to the idea that ghosts are perfectly harmless creatures, who are powerless to affect our well-being unless we assist them by giving way to our fears, we should enjoy the supernatural exceedingly, it seems to me. Coleridge, I think it was, was once asked by a lady if he believed in ghosts, and he replied, "No, madame; I have seen too many of them." Which is my case exactly. I have seen so many horrid visitants from other worlds that they hardly affect me at all, so far as the mere inspiration of terror is concerned. On the other hand, they interest me hugely; and while I must admit that I do experience all the purely physical sensations that come from horrific encounters of this nature, I can truly add in my own behalf that mentally I can rise above the physical impulse to run away, and, invariably standing my ground, I have gained much useful information concerning them.

How John Wrote the Book of Revelation is the first of its kind, and introduces genetic literary reconstruction to Biblical studies. It enables the reader to produce prior drafts of Hebrew and Christian Scriptures, thereby allowing the reader to apply the literary science of genetic criticism to a book in the Bible. How John Wrote the Book of Revelation takes the most difficult book to understand in the Christian Scriptures and reveals the sequence in which it was written, from the very first line to the final parallel. This provides the reader, for the first time, with the experience of observing how a Biblical book was written, and does this from an intimate perspective, as though they were looking over John's shoulders as he crafted it. How John Wrote the Book of Revelation is the first book that teaches the reader how to read Revelation the way it was written. After centuries of blind guess work trying to divine meaning, and weak interpretations of symbols, this book finally presents a clear, precise, and consistent method. It is a guidebook to identify all the rich symbols and their meanings within Revelation. Inside the pages of this book is the all-encompassing theory of construction for the book of Revelation. It includes three prior drafts of the book of Revelation, along with hundreds of charts and illustrations. How John Wrote the Book of Revelation is like no other book that has been written before, and sets a new paradigm for all Biblical works.

REVIEW OF WILL YOU SIGN HERE JOHN HANCOCK

- Anything the guy writes appeals to me but this one just didn't seem to hold together. A lot of good ideas but none explored or exploited the way it could have been. Really a mish-mash in which King, himself, doesn't seem to know where the story is headed or why. Could have used a good editor, too. Black House is, so far, much more enjoyable but gosh, do I miss the King-days of "The Shining", "Dead Zone", etc., etc.
- I'm a long time King fan. I've read most of his early stuff, but not much in the last few years. When Dreamcatcher was released and made into a movie, I thought I would give it a shot. IMHO, it's not the equal of King's earlier works. When I read a novel, I read for pleasure, so I read every word. At times I found myself scanning paragraphs and occasionally, entire pages, just to get through them. Overall, I enjoyed the story, but I can only recommend this book to hard core King fans.
