REVIEW OF FREEDOM WRITERS DIARY SUMMER READING ASSIGNMENT

- This is an excellent book that clearly defines the difference between the thinking,action,desires,motivation and principles of Liberals and Conservatives. The differences are clear and not debatable since the actions of people on the opposite sides of these approaches,have proved it over and over again.The real point of this book is that it does not take a stand,but it is up to each individual to learn the facts and then to do their own thinking;and make their own choice in what you think is the best approach to take in your decisions in dealing with the issues which confront you on a daily basis.In other words,there are clear differences and you must make your own choices.You are going to find a lot of things in this book that may surprise you;but if you doubt some of the things said;there are ample references given for you to follow up and see if the facts are correct or otherwise.If you have done any amount of living,you will,or at least should,have learned by now that there are no "Free Lunches" and anyone who promises them,any system that offers them,etc;is

simply stringing you a line. The one and only one who is going to have your interest at heart is you and nobody else.What you must do is decide to take responsibility for your own well being,motivate yourself to educate yourself and set a course on the lifestyle that will suit yourself and your aspirations.To buy into the idea that the government,politicians,the company,or any other organization is better equiped,and have any intent of taking care of you is an approach that will serve them---but not you.Valentine makes no doubt about it that he has chosen the conservative values to build upon.He has shown why.He also shows the liberal choices with the same issues.What one must do is make their own choice.However;that choice must be made based on an understanding of the differences;not what the media,your school,politicians,or even friends or family tell you.There is an old saying ,"God helps those who help themselves".This is always the case ,be it in times of prosperity or times if adversity. Katrina ,and what happened in New Orleans,aught to convince you.

- Have found significant portions of book embellished to point of fiction. Real story was good without the self serving embellishment. Brinkley missed a great opportunity to tell true story, makes John Kerry big target for those of ill will who know real story. Brinkley ghost writer not historian with this book.
